EXPERIENCE

Neurite Lab (01/2019 - 06/2019)

Front End Developer

I created half of a very large app which is used every day by hundreds of users of a huge company in the leisure sector.

I was building all the client-side of the app as the only Front End Developer of the company, using and improving a lot my knowledge in the modern technologies ReactJS and Redux.

Hotusa 4* (02/2018 - 08/2018)

Guest service and auditor

Ovolo Woolloomooloo Sydney 5* (10/2016 - 02/2017)

Hotel receptionist

Novum Hotels of Berlin 4* (09/2014 - 11/2015)

Hotel receptionist (in 7 hotels)

Campanile Barberà del Vallès 3* (04/2010 - 10/2013)

Hotel receptionist

EDUCATION

Bootcamp Full Stack Javascript (09/2018 - 12/2018)

Skylab Coders Academy

Bootcamp Full Stack Javascript (MERN): +500 hours. We did many little projects making queries to APIs, creating our own APIs and Databases, with Agile methodology and daily standups.

My Final Project is an e-commerce made with REACT, NODE, EXPRESS, MONGODB and Mongoose, tested with Mocha&Chai, 90% NYC of coverage. After Registration and Login, it lets to buy different Breakfast products of the real company Planbe and specify payment details and dropping place.

Also possible to see orders History, Edit profile and Send inquiries to the company. I also used Nodemailer, so you receive customized confirmation Emails after registration, profile updated and finishing an order.

Link to project: <https://github.com/pepdbm7/planbe>
